### **EnCana Provides Employees Opportunity to Multiply Generosity**

EnCana Corporation is double-matching the donations made by any of its nearly 3,800 employees in Canada and the US wishing to contribute to the earthquake relief efforts in Haiti. Utilizing the company's existing Matching Gifts program, EnCana matches employee contributions greater than \$25. For example, a \$25 donation results in \$75 going to help the people of Haiti – the \$25 employee donation plus \$50 EnCana match. Donations made on or before February 28 qualify for the double-matching.

In early 2005, EnCana raised more than \$1 million through the company double-match for relief efforts arising from the Southeast Asia tsunami crisis. Such an overwhelming response represented a stirring testament to employees' generosity in helping tsunami survivors rebuild their lives and communities.
